## NINTH ANNUAL FIELD DAY AT TECH FIELD, BROOKLINE, THIS AFTERNOON

## Sophomores and Freshmen in Football Game, Relay Race and Tug-of-War

With all the teams in the pink of condition, the sophomores and freshmen will clash this afternoon in their annual meet at Tech Field.

For over a month the football, relay and tug-of-war teams have been preparing for this eventful day and all are now eagerly awaiting the moment for the test of their strength and endurance, and the time when they will compete for the honor of their respective classes.

The sophomores have the decided advantage of one year's experience, but the freshmen have an advantage which offsets this—a much greater enthusiasm. The present sophomores have already won a Field Day and the freshmen, fearing a possible repetition of an odd-year class losing two successive Field Days, will put all their strength into today's conflict in the hope of gaining a victory over a class which has already shown its mettle by defeating the class of 1911.

With the exception of Captain Eicher, the sophomore gridiron warriors have no individual stars on their roster, but each man is one of a whole which should help towards victory.

On the other hand, the freshman teams are practically unknown, because of the slight chance which has been offered in which to draw any final conclusions as to their abilities. Nevertheless the class of 1913 has undoubtedly some of the strongest teams any first year class at the Institute has ever had.

The sophomores have the advantage of some fairly good sprinters on their team, but the showing of the freshmen in the dashes at the Fall Relay Handicap Meet was excellent. In any event it will be an exceptionally close race and good time should be made, though the record for the distance will undoubtedly stand.

The freshmen have a medium weight eleven, but the sophomore team is not much heavier in comparison, except on the line. The plays will probably be somewhat open, as the sophomore coach has been developing this style during the season. The sophomores' ends should be able to do some good work on the forward passes. The fresh-

## FIELD DAY

(Continued from page 1.)

man team is using mass plays and old-style football and have been putting up an excellent game. The football game has practically been conceded by the sporting contingent at Technology to the freshmen, but the sophomores are just as firmly convinced that they will be victors.

A summary of the season's work and the comparison of the different teams follow, which may assist those who wish to get some "dope" on the results.

### FOOTBALL.

Manager Whittlesey had an excellent schedule arranged early for the sophomore team and Captain Eicher started the men at their first practice on the first day of school. Twelve men reported for practice, and the preliminary signals were run through. The squad increased in numbers after a few days, and on Oct. 9, the sophomores met the champion Waltham High School team and were defeated 5 to 0. This was an excellent showing for so early in the season and the men were much encouraged. Other games played resulted in the following scores:

Oct. 18.—1912, 3; Dean Academy, 0.  
Oct. 25.—1912, 0; Lowell Textile, 15.  
Oct. 28.—1912, 11; Newton, 0.  
Nov. 1.—1912, 0; Exeter, 10.

The freshmen answered the first call for practice with ten men and Coach Matters started to bring a good team out of this raw material and succeeded. The freshmen met Dean Academy on Oct. 14, in their first game and brought the game home by the score of 5 to 0. Somerville was the next team met, and they defeated the freshmen by a score of 8 to 0. Other scores were as follows:

Oct. 29.—1913, 5; Rindge, 5.  
Nov. 1.—1913, 11; Lowell Textile, 0.

### RELAY.

Manager Schell of the 1912 team had seven men out for first practice and Coach Kanaly started the men on their preliminary work. Captain Grant is out of the running because of sickness, but some of the best sprinters in the class are back in the game who will help carry the flag of 1912 to victory. M. A. Oettinger, L. B. Walker and S. E.

Reed are perhaps the best men on the team. Oettinger, in the quarter mile dash at the Fall Handicaps, lead the field by several yards for the first half of the quarter, though he started next to the scratch man. Reed and Walker were the stars of last year's race, and it is expected that they will continue their good work in this race.

Of the 1913 team little is known, but of the men on the team, Captain Burnham has been doing great work, and other stars are A. D. Conant, R. C. Thompson and C. E. Trull. Conant, Thompson and Trull placed in their heats of the 100 yard dash and have been making a good showing all season.

### TUG-OF-WAR.

This event has always been conceded to the freshmen class and this year does not seem likely to be an exception.

The number of freshmen out for the event was especially encouraging to the coaches and the team picked to represent the class of 1913 has everything in its make up to give them the victory.

The sophomores are no exception either to the rule this year, in the number of men out for tug-of-war. There have been but few men out this year and as a result the 1912 team is not up to the standard which the managers had hoped for.

The statements and "dope" given above are all taken from current talk, and no attempt is made by The Tech to pick a winner of Field Day.

## FIELD DAY DINNER

It has been the custom to have a dinner the day after Field Day for all those who participate in the various events on this day. It will start at 6:30 sharp at the Union and everybody is expected to be on time. All competitors, marshals and other officials are invited.

One of the features of the dinner will be the presence of President MacLaurin, who will speak. The other speakers will be Dean Burton, Bursar Rand, Prof. Park and Maj. Briggs.

## 1912 HOLDS MEETING

The class of 1912 held a short meeting yesterday noon for the purpose of arousing enthusiasm for Field Day and Tech Night at the Colonial. Pres. Eicher spoke of the necessity of showing class spirit at the Field and afterwards at the theatre, whatever might be the outcome of the afternoon's contests.

Frederick E. Poor 1912, called attention to the fact that a member of 1912, P. A. Horgan, was lying seriously injured at the Somerville hospital as a result of an accident on the cars. A resolution was passed to take up a collection for flowers to be sent to him. The members of the class subscribed generously on passing out of the hall, and the remembrance will be sent as soon as possible.

## COMMITTEE MEETING

At the informal meeting of the Union dining room committee yesterday, the members all reported a very large sale of tickets for the Field Day Lunch. It was announced that tickets will be sold up to the time of the dinner if the supply holds out. The committee will hold a regular informal meeting every Monday afternoon at 4 P. M. hereafter.

The Union will have no other service this noon besides the special luncheon which has been arranged for by the Union Committee.

Technology and Harvard will today have their sixth annual cross-country race over the four and one-half mile course from Highland station to the Tech Field in Brookline.

Tech has the advantage of long practice over this course, which is reputed to be an unusually severe one. As the men leave Highland station and run up Corey street, they encounter a long ten per cent. grade which has been the cause of one or two men in each race dropping out. The next two miles of the course is a long succession of up and down grades, over walls and fences, through brooks and patches of woodland, testing the endurance of all the runners. A man who can get to the top of Larz Anderson's hill without falling over a pipe running across the summit, fifteen inches off the ground, is certainly in good condition. The race is usually lost or won at this point, for the rest of the course is down grade and the relative positions of the men do not change materially from there to the Field.

### SUBSTITUTES

C. D. BURRAGE 1911

Jaques, the Harvard crack, who is captain of the team and who finished first last year, will be unable to run, owing to an injured foot. E. C. Viets 1911, is acting captain and though he is a fast man, he can by no means come up to the standard set by Jaques. P. R. Withington 1912, is said to be a very fast man and the Harvard supporters expect to see him among the first three at the finish.

Of the Tech team, E. Jacobs 1910, who is captain, finished sixth last year, L. O. Mills 1910, finished fourth; J. D. McKenzie 1911, finished thirteenth; and W. T. MacCreadie 1911, finished nineteenth. The rest of the men are all making their first appearance. H. G. Watkins 1912, is particularly promising and is expected by many to finish in the first position.

Harvard has a well balanced team, perhaps as good as last year, but with an even break of luck Technology should win this afternoon. The race starts at 2:45, and the leaders should arrive at the Field between the halves of the football game.

FIELD DAY LUNCHEON

All down to the Field Day luncheon at 12:00 this noon. Several members of the "Fair Co-Ed" company will be present as guests of the class of 1912. After luncheon these young ladies will go to the Field in Brookline on the Show Buzz Wagon.

Owing to an important engagement, Miss Elsie Janis cannot attend the luncheon, but will try hard to come out to the Field and see the antagonists, 1912 and 1913 fight it out to a finish.

WITH THE COLLEGES

The first intercollegiate game of football played by Yale was on November 16, 1872, when three goals were scored against Columbia. Harvard's first intercollegiate game was played May 7, 1874, when McGill was beaten by the same score.

Minnesota's football coach runs his men through thick, upright posts in order to teach them to dodge while running at full speed.

Colorado University has abolished the flag rush.

Six crews have qualified for the finals in the inter-dormitory rowing races at Harvard.

At Pennsylvania the English Department announces several prizes to be competed for by members of the three upper classes.

New York University upperclassmen on Friday, gave the freshmen their annual ducking in the "Fountain of Knowledge," as the little pond near the college has been termed. The "freshies" were corralled early in the evening and made to get into their pajamas and in the center of a large throng of upperclassmen were escorted to the "front." Each freshman was given a "stunt" to perform and if he refused or was unable to satisfy the judges, he was plunged into the icy water. The scene was witnessed by a large number of people from a amphitheatre which had been built around the pool.

Thirteen games have been scheduled for the coming of the season of the Princeton basketball team. Prospects for a winning combination are considered bright.

The dropping of an elevator in the University of Wisconsin library came near creating a panic among the students in the reading room. No one was seriously injured.

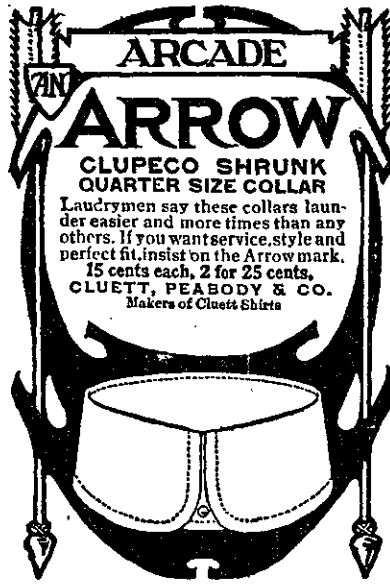

Dr. Eliot of Harvard has been appointed president of the National Conservation Association.

Pennsylvania will start its series of University Concerts on November 8, when the Philadelphia Club will give the first of six concerts.

Herbert Rosenberg, of the Irish American A. C., has entered Brown University. Last year as a member of the Morris High School in New York city, he won the Metropolitan high jump with 5 feet 11 inches.

To know where to subscribe—and where not to—is an art. To freshmen this art is unknown. As some subscriptions are necessary and good, even so others are unnecessary and extravagant. —Yale Daily News.
